

Introduction of PitPat

This document is intended for users who are interested in the PitPat App or who have already downloaded and registered the PitPat software. It will make it easier for each user to learn more about developers, product descriptions, product features, and other important information. Due to the rapid update frequency of software products, some information may be in the old version due to insufficient importance. Therefore, this document is only for reference and does not serve as guidance for actual use. For details, please refer to the online functions of the app and perform operations according to the actual displayed contents.

Company Introduction

JOYFIT, founded in 2018, is a smart fitness brand committed to building the world's largest online competition platform and serving hundreds of millions of users. JOYFIT adheres to the mission of changing competition forms with technology, adheres to the values of fairness, trust, truth-seeking, and innovation, and takes users first as its operational philosophy. Joyfit is committed to enabling everyone to launch an online competition anytime and anywhere and enjoy the charm of competitive competition through intelligent Internet technology.

App Introduction

PitPat is a smart home fitness brand designed and developed by the JOYFIT team. It innovates to create the world's first online competition, providing a new form of exercise for all home fitness users. When users open PitPat, they will enter a new world of online competitions. All users can train and compete at will, and get rewards while improving their physical fitness.

It's a new world of training, races, socializing, entertainment, and so on, satisfying your imagination about the new world of running.

At present, the PitPat App is still in the initial development stage. Some functions are only available to users who purchase a connected treadmill. Sorry for the inconvenience caused to you! The PitPat team is working on new features and content that will be available to non-treadmill users in future releases. You can follow us on PitPat's social media for updates.

App Registration and Use Guide

If you're an iPhone user, head over to the App Store and search for PitPat; Android users should head over to Google Play and search for PitPat.

1. After downloading, install, and click to enter the registration page.
2. Please set your nickname, fill in your usual email address and set your password as required.

(1) Please note that the bonus will be paid to your account and withdrawn through your PayPal account. Please keep your login password.

(2) Please try to fill in the real age, which will help the system to provide you with more accurate course recommendation and race recommendation

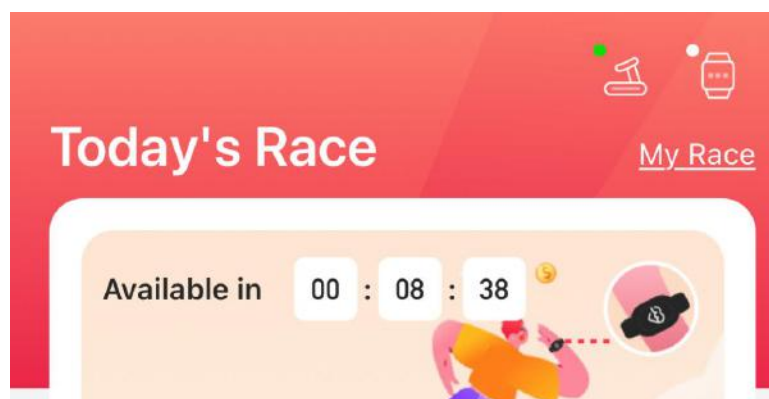

(3) If you do not receive the verification code email, please confirm whether the email account is correct, whether the network connection is normal, or search in the dustbin; If you do not receive the email within one minute, you can resend the email or change the email address. If you do not perform the operation, 10 minutes later the system will send an email to invite you to register again, please check!

3. After you complete registration and login, you can normally use the PitPat software function and connect to the treadmill to start the experience.

How do I connect to a treadmill using the App?

(1) Register and log in to PitPat, click the treadmill logo on the left of the upper right corner of the screen, turn on the Bluetooth function as prompted, search for the device under the condition that the treadmill has been connected to the Internet, and click the treadmill number. If the treadmill logo is green on the upper left, it indicates that the connection is successful;

(2) Click on a random race on the home page and join the race according to the normal process. The system will confirm the PitPat status of the treadmill connection before the start of the race. If the Pitpat status is not connected, it will search for the device connection automatically.

App Function

PitPat provides training, fitness, games, races and other features so that all users can enjoy their passion of sports. Training is only a small part of PitPat, even if it is more functional than much other popular training software. At its core, PitPat is an online race where you invite others to race with you. Your field is a treadmill and the judges are treadmills, including anti-cheating activity trackers and smart modules.

Training

Every runner wants to get something valuable out of training quickly, and that's what PitPat is all about. If you want to run longer and farther, professional guidance is essential. Health is the purpose of running, not the cost of running. This is also the direction that the PitPat team has been striving for: to make everyone in better physical condition through the competition!

Fitness

When you want to get fit, just switch on the PitPat connected to the treadmill and get started right away. Without too much preparation, without planning a route, entering a race, choosing a mileage target and running until the end of the race, fitness is as simple as that.

Game

During your run, you're like a game character in the PitPat world. You run to get through the scene, or you collect gold coins, which accumulate in your account, and maybe you can redeem it for something real, like a speed-dry suit that's better for running. If you participate in a variety of races, you will accumulate gold coins more quickly.

Competition

When you want to start a competition offline, there can be a long wait from registration to entry. At PitPat, as long as you want to participate in a race, you can step on the treadmill and choose the distance you want to participate. Unknown opponents can make you more confident and make the race more suspenseful.

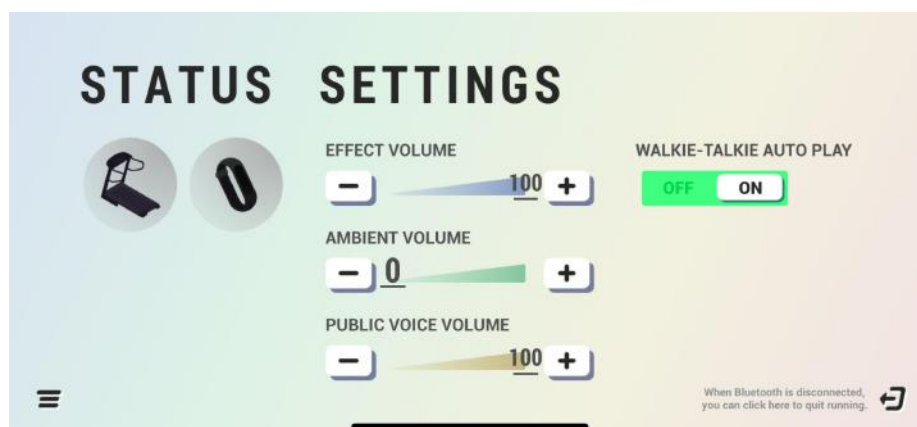

Shopping

PitPat App has a built-in mall function. All brands cooperating with PitPat can display their products in the PitPat Mall section, and PitPat will complete the logistics delivery. This part of the brand can be sports-related, such as sports equipment, sports apparel, etc., but also can be for other products, to provide users with more choices.

Socialize

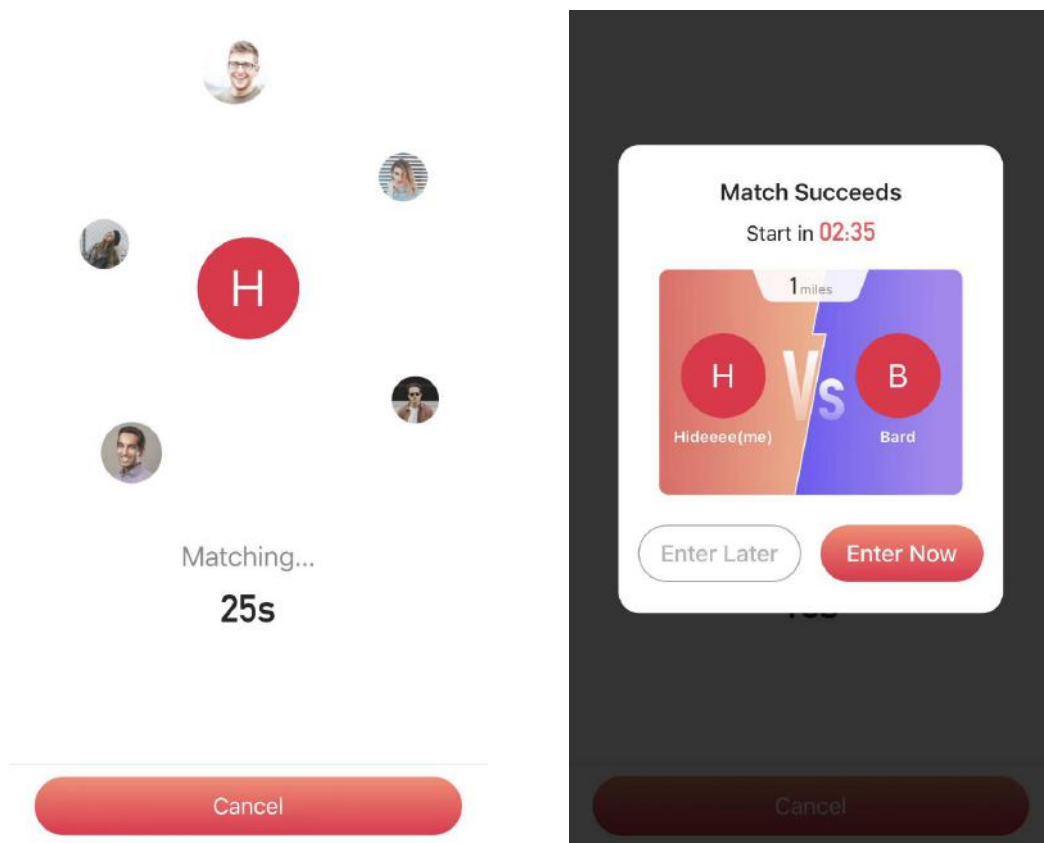

On PitPat, users can communicate and encourage other runners through the built-in voice system during training and competition. In this process, users can communicate with each other constantly and become friends with the same interests gradually and expand their social circle.

Competition Introduction

As an online competition platform, PitPat's core and most interesting feature is the ability to complete running races online. On PitPat, tens of thousands of people run and thousands of people race every day. To meet the needs of its users, PitPat officially organizes hundreds of events each day, divided into four categories: 1VS1 PK Run, Multi-Player Run, Ranking Challenge Run, and Milestone Run. In addition to the main race, users can also create their own contests and invite strangers or friends online to participate. In addition, PitPat plans competitions based on festivals that are more fun to participate in with an unconventional time limit.

1VS1 PK Run

Users can invite their online friends or random strangers to participate in the 1VS1 PK Run, and the authorities will offer certain rewards based on the set distance of 1 mile, 2 miles, 3 miles, etc.

Start Time

Tips

Reminder: 1. If you are 30 minutes late, you will not be able to enter the game, and be considered to give up the game. Rewards will not be given and the deposit will not be returned. 2. The race needs to be finished at one time. Please do not quit halfway.

Completion Runners' Results(23)

| User | Time | Distance |
|----------|----------|----------|
| B Berger | 8mins... | 1miles |
| K Kerwin | 8mins... | 1miles |

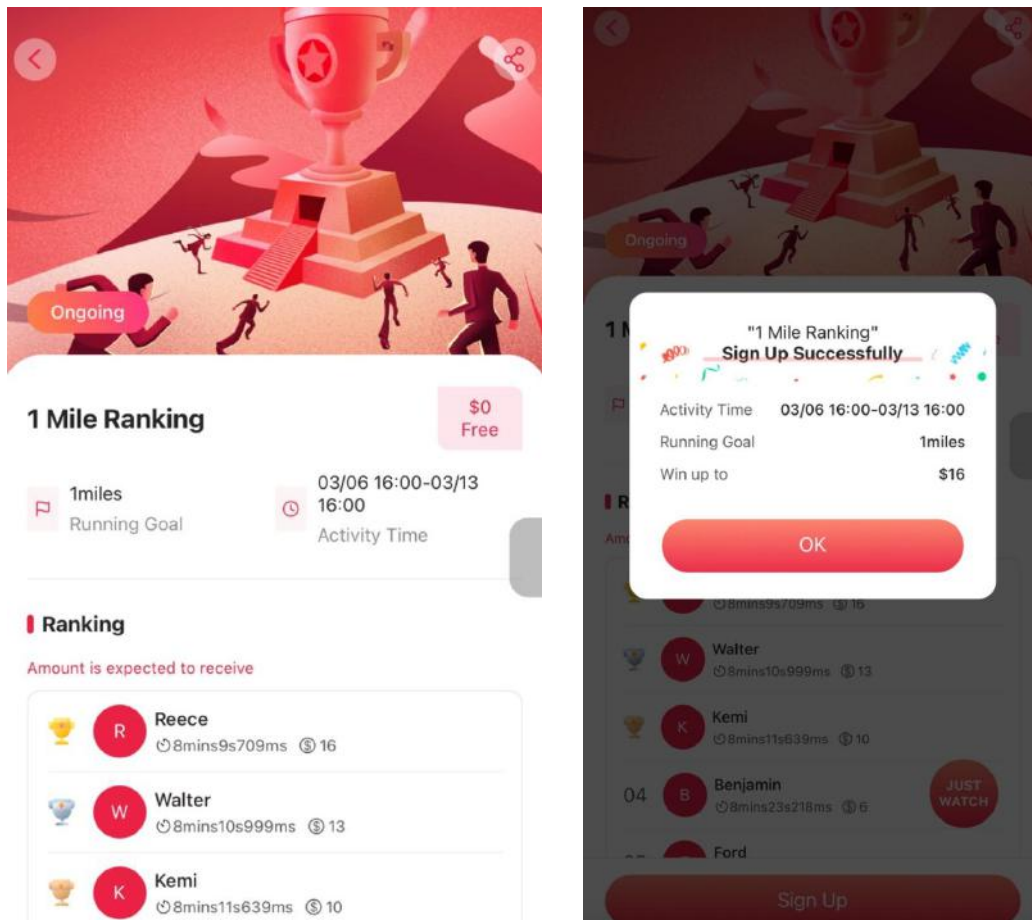

Start

Available in 00:07:20

The range includes 1 mile, 2 miles, and 3 miles. There are hundreds of races per day, with the top bonus of more than \$20, and tens of thousands of people can compete at the same time.

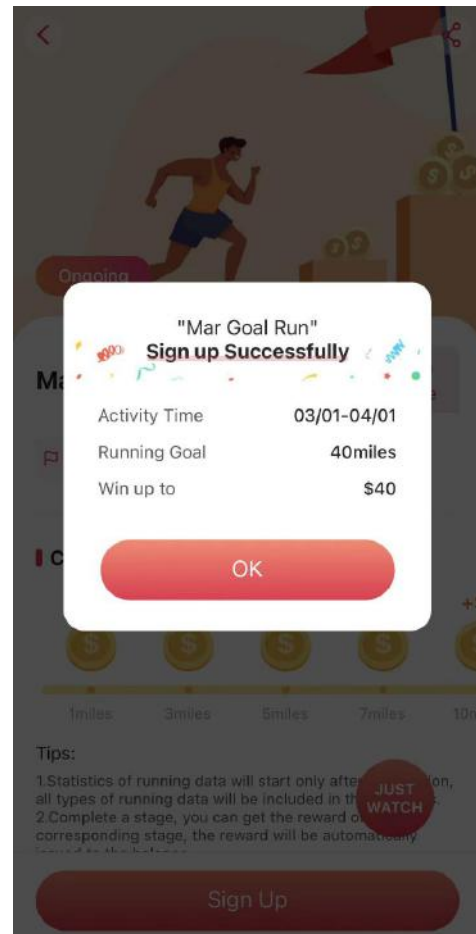

Ranking Challenge Run

4 times a week, the top 20 players will be challenged by others. When challenged successfully, the challenger will replace the position and will be re-ranked. Each successful challenge will be rewarded, and at the end of each week, bonuses will be awarded according to the final place.

Milestone Run

It is officially organized once a month for a total of 40 miles. Just register before you run, and you can add up all the miles you ran that day to your total mileage. Each time you break a mileage point, you get a bonus, and the total mileage you complete gets the final bonus.

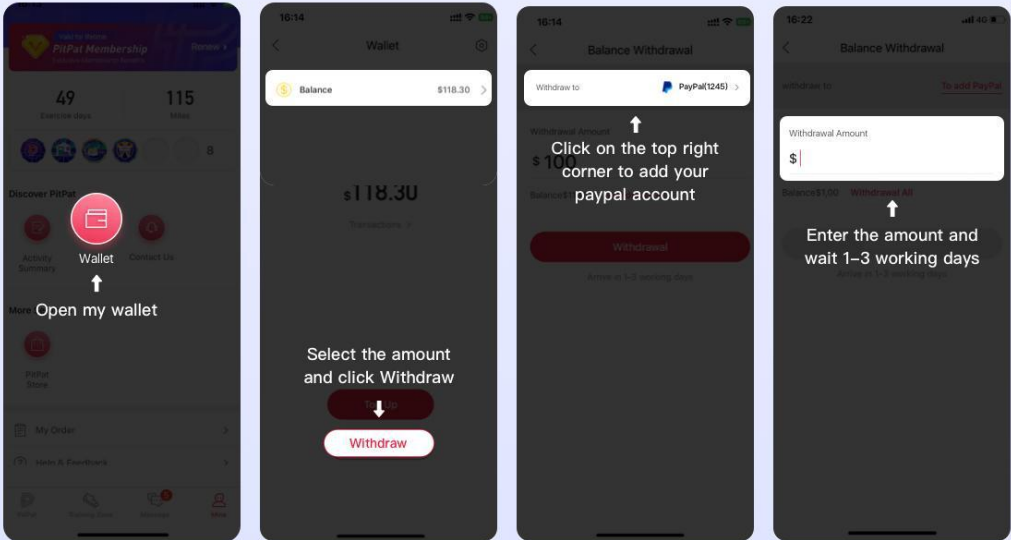

Bonus System

PitPat offers real monetary rewards for participating in PitPat races, which are funded in part by the brand of treadmill that connects to PitPat and in part by other PitPat revenues. All monetary rewards must be earned for participating in an online match and completing the match or corresponding mission. According to the official calculation, if you insist on participating in the event at PitPat, it will take less than two months to earn the corresponding purchase price.

When the user enters the competition and wins the ranking, the rewards are distributed to the user's account automatically. The account is located in 'Mine' – 'More Services' – 'Wallet', click 'Wallet' and enter the withdrawal page according to the process, click "Withdraw" and bind 'PayPal' to withdraw money to the 'PayPal' account, which is expected to arrive in 3 days.

How to **withdraw to paypal account** ?

The image illustrates the four-step process for withdrawing funds to a PayPal account:

- Step 1:** Access the app's main menu and tap on the **Wallet** icon.
- Step 2:** On the **Wallet** screen, view the current balance (\$118.30) and tap the **Withdraw** button.
- Step 3:** On the **Balance Withdrawal** screen, select **PayPal(1245)** as the destination and tap **Withdraw**. An arrow points to the top right corner of the screen with the instruction: "Click on the top right corner to add your paypal account".
- Step 4:** On the **Balance Withdrawal** screen, enter the withdrawal amount in the **Withdrawal Amount** field and tap **Withdraw**. An arrow points to the input field with the instruction: "Enter the amount and wait 1-3 working days".

User Growth

PitPat is not only a running training App, it also has a competition function and a social function. When you actually use PitPat and get used to it for your daily running and social activities, you will experience visible growth. PitPat cares about the physical growth of each individual, as well as the spiritual growth of each individual. In order to enable more people to fully understand and enjoy the concept of online races, PitPat will launch the event content cooperation activity. Each user may be included in the list of official content partners and receive certain rewards, including various types of coupons, free replacement of updated sports equipment, customized fitness products, etc. Even a chance to be inducted into the PitPat Hall of Fame, which will forever be remembered in the history of the PitPat brand!

Information Feedback

PitPat is very willing to listen to the opinions of every user. Since its inception, many of the team's ideas and business direction have been based on real user feedback. It is with the support of all users who are willing to offer suggestions that the PitPat competition platform concept was born. In order for PitPat to grow faster and better, we hope to receive more feedback from our users. If you are a treadmill user, I hope you can give suggestions on the functions of the smart treadmill.

If you are a regular user of the training App, you can send us your thoughts on good courses. We will select some users who come up with some good ideas, and they will get our products for free for better testing and feedback later.
